Section IIIA—TIME EXTENSION

Within this section, discuss your jurisdiction's progress in implementing diversion programs that were planned to achieve 50%. Provide any additional information that demonstrates "good faith effort." The CIWMB shall determine your jurisdiction's progress in demonstrating "good faith effort" towards complying with AB 939. Note: The answers to each question should be comprehensive and provide specific details regarding the jurisdiction's situation.

Attach additional sheets if necessary—please reference each response to the appropriate cell number (e.g., IIIA-1).

- 1. Why does your jurisdiction need more time to meet the 50% goal? Describe why SRRE selected programs did not achieve 50% diversion. Identify barriers to meeting the 50% goal and briefly indicate how they will be overcome.**

Commercial and multi-family programs need to be fully implemented. 50 % of the City's waste stream is in the commercial area and more emphasis needs to be placed in this area in working with the hauler to develop these programs. The City and hauler are looking at implementing a MRF Program for the commercial sector in near future. New efforts were implemented in 2000 and the City needs more time to see the impact on the diversion rate. Implemented programs include School Recycling programs, commercial education programs, comingled recycling bin placed at Civic Center for multi-family use, multi-family pilot programs, business and residential Recycling All Stars competition, pavement rehabilitation using rubberized asphalt, grasscycling and composting education through Master Gardners, Christmas trees, phone book recycling, E-cycle and tire collection days are held annually. SRRE programs that have been implemented include residential and commercial recycling and composting collection, grasscycling, drop-off recycling center, variable curbside recycling rate, procurement. The City participates in a County-wide Public Education Committee to promote regional recycling education efforts. The City is purchasing bottle/can recycling bins to place in parks and walking trails. Green waste drop off center at local park began in 2000. Sharps Program began in 2001

- 2. Why does your jurisdiction need the amount of time requested? Describe any relevant circumstances in the jurisdiction that contribute to the need for a Time Extension.**

Take time to implement the commercial and multi-family effort as well as the regional public education effort. Time is needed to promote the programs, setup the collection routes and monitor the collection data. Additionally, time is needed to see the results of the programs implemented in 2000.

- 3. Describe your jurisdiction's Good Faith Efforts to implement the programs in its SRRE.**
